

CLINICAL TRIALS IN SMALL POPULATIONS WORKSHOP

We invite researchers and practitioners to discuss state-of-the-art methods for trials in small populations. This two-day workshop will offer an interactive training day for statisticians and an open day with invited talks by medical statisticians from industry and academia, patient representatives and regulators.

30th November 2015

Groundwork Training

This day of the workshop will be open to a selected audience of statisticians.

It will consist of practical sessions combining training on novel statistical methods and discussions of case studies. Priority for attendance will be given to applicants wishing to present case studies.

A limited number of travel bursaries will be available for early-career researchers. For details on how to apply go to:

www.lancaster.ac.uk/maths/small-trials/

Submission deadline: 26th October 2015

1st December 2015

Forwards-Looking Forum

Confirmed Speakers:

Nicky Best (GlaxoSmithKline)

Nick Catlin (Action Duchenne)

Simon Day (Clinical Trials Consulting & Training)

Ralf-Dieter Hilgers (RWTH Aachen University)

Marie Cécile Le Deley (Institut Gustave Roussy, Grand Paris)

Martin Posch (Medical University of Vienna)

Kit Roes (University Medical Centre, Utrecht)

Nigel Stallard (University of Warwick)

Registration deadline: 16th November 2015

Venue: Royal Statistical Society London EC1Y 8LX

Dates: 30th November – 1st December 2015
