08:45 – 10:00	<p>Bridging the Divide: How Academia/Industry collaborations have the power to transform clinical development (PL2)</p> <p><i>In this talk, Jen will talk about her journey from academia to industry, and what she has learnt along the way. She will discuss the differences between academic-run and industry-led clinical trials and what they can learn from each other. As we see a shift towards more innovative and complex clinical trials, it will become increasingly important to foster collaboration between the two groups. And as we see academics wanting to make the move into industry, how can we present ourselves as a viable alternative that is rich in research. The talk will be followed by a panel discussion with other industry speakers.</i></p> <p><i>Chair: Sue Todd</i></p> <p><i>Jennifer Visser Rogers</i></p> <p><i>Panel Discussion: Jackie Carter, Dominic Magirr and Vicky Marriot</i></p>
